- Q. And was it your responsibility internally to make certain that that happened?
 - A. Yes.
- Q. Now, did you work with any asbestos plaintiffs lawyers? When I say work with them, did you have interaction with any of the big guns in the asbestos bar?
 - A. Personally?
 - Q. Yes.
 - A. Yes.
 - O. Who?
- A. And I was alluding to this earlier. Most of them, certainly in

A. And I dealt with most of them, at least at that time. It's been eight years. I am sure it's a new group. But at that point, many of them.

Q. I am not so sure. Give me some examples.

- A. You can go down geographically. I know Perry Weitz, and I have met with Perry Weitz. I know Joe Rice. I know Greitzer & Locks. I have dealt with Dino Vovet (phonetic), Peter Angelos' firm many times. I used to know Mike Kelly who has passed away. I know Jim Ferraro. I know Irving Gonzalez, who is in jail. I know -- who else? I have dealt with -- I know Russell Budd and Fred Baron. I have dealt with Peter Krauss.
- Q. You mentioned Mr. Cooney earlier, I think.
- A. Cooney, I know John Cooney. I have met with him.
- Q. Any others that you can think of?

terms of the inventory settlement agreements and when we got into the process of settling larger groups, local defense counsel on the asbestos personal injury cases, when it's comes to resolving larger groups, have kind of conflicting motivations.

On one hand, they want to do their client a good service, and they want to get rid of cases as cheaply as possible, but on the other hand, inventory settlements where we might buy up or settle the docket for six months, eight months, even two, three months, settlements like that cause the defense lawyers to lose billable hours in terms of their own businesses, lawyers.

So when we started getting into those negotiations in the larger groups, I would handle them personally. And it was generally in that capacity that I dealt directly with plaintiffs' lawyers.

Q. Okay.

A. There is probably others I have met with, and I have missed some. But there are some that I haven't met, either because we didn't get into those kinds of discussions or I was comfortable with the ability of our local counsel to negotiate cases and just the need for me to meet with them didn't arise. Particularly in California, the traditional California firms, I don't recall meeting working with Steve Casner, and there are others out there.

Q. All right. Again, we are still focused on the pre-petition time frame.

Was Grace required to obtain the consents of any of the members of the plaintiffs bar with respect to the manner in which Grace defended itself against asbestos claims, any of the gentlemen you just mentioned?

I think that's a question that's overly broad, and I think it really -- it's specific to an insurance company and to law firms and to jurisdictions.

But, again, we worked with insurance companies in settling and resolving these claims and resolving their coverage over the course of the 15, 20 years I was involved in it.

Q. Did any insurer that had coverage for Grace, any insurer, object to the manner in which you were conducting the defense of the claims for asbestos-related disease against Grace?

MR. SCHIAVONI: Object to form.

THE WITNESS: None that I recall.

MR. LEWIS: That's all I have.

MR. BROWN: Let's mark

(Hughes-15 marked for identification at this time.)

MS. HARDING: Just to save time, again, Exhibit 5 to the Plan was topic upon which Mr. Finke was designated to testify and I think did. But to the extent that the witness can answer the questions related to it, go ahead.

MR. BROWN: It's an insurance-related question.

MS. HARDING: I understand.

- settlement agreements for Unigard Security Insurance Company? Do you see those?
 - A.
- And it says "now known as Seaton"?
 - A. Yes.
- Q. Okay. Do you understand those two settlement agreements to pertain to the two policies that are on the first exhibit that I had you look at?

MS. HARDING: Object on foundation, to the extent that you know. And --
